

Instructions for diaper cake „Castle“ ✂️ 📄

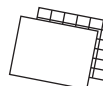

the „ingredients“:

35 diapers

30cm for the base: a solid piece of cardboard in the shape of circles

for the decoration:

gingham and white handcraft paper

scissor, pencil, glue

glitter pen

two empty

kitchen paper rolls

4161 Cuddly blanket monkey or
4161 Kuschedecke Affe oder

4163 Cuddly blanket dog

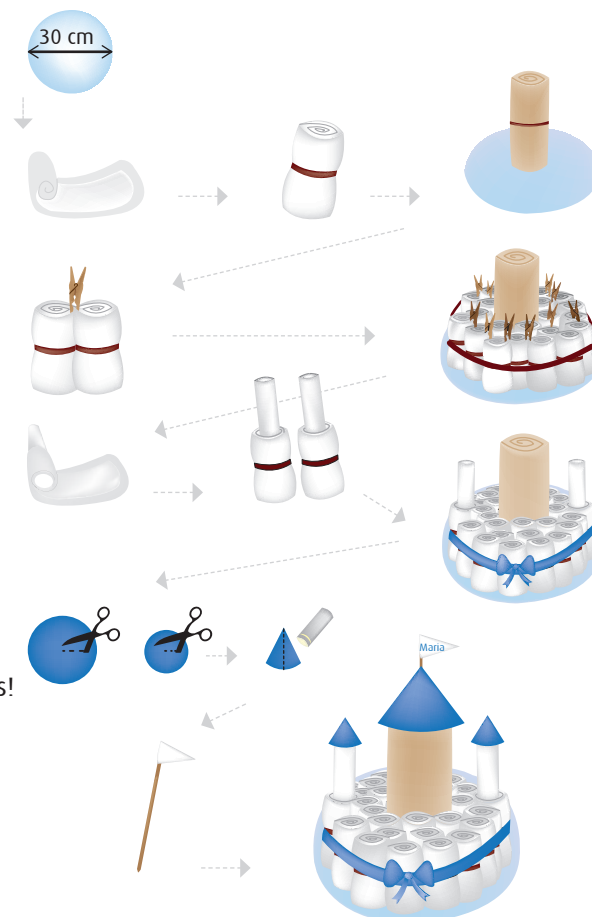

tools:

clothespins
35 little rubber bands
one big rubber band

Here we go:

1. Cut the paper to a 30 cm Ø circle
2. Roll up the diapers and fix them with rubber band. Two diapers have to be wrapped up with kitchen paper rolls. The cuddly blanket serves as stabilizer and has to be placed in the middle of the cake plate, fixed with a big rubber band!
3. Secure all diapers with clothespins and put the blanket in the rubber band!
4. Two diapers have to be edged with empty kitchen rolls and placed left and right!
5. Put the gift ribbon on all diapers and decorate with a bow!
6. Cut a 15 cm Ø and 9 cm Ø circle from the handcraft paper. Cut them up to the middle and you will make a roof by overlapping both cut edges. Glue those accordingly and put them over the towers!
7. In the large tower a skewer has to be inserted, with the paper made egg white triangle glued on it!
8. Now you can decorate! The fantasy has here no limits!
