

PRESS RELEASE

marketing@legler-online.com

New XL wooden vehicles for driving fun in a large format!

Make way! Our new XL wooden vehicles have pulled up, and have the **perfect playing and learning fun for the youngest kids in the boot!** With the **particularly large-format toy vehicles which are playable from above**, such as the Police Bus (Prod. 11459), the Fire Engine (Prod. 11456), the Ice Cream Cart (Prod. 11457) and the Parcel Lorry (Prod. 11458), there's something for every young car fan! And that's not all: in addition to their large format, these vehicles also captivate kids with hinged details, rubber-finished wheels for quiet rolling on all surfaces, action figurines and fitting accessories.

The richly detailed prints provide realistic playtime experiences and invite children to do fantasy-filled role-playing. Especially with the Ice Cream Cart and the Parcel Lorry, **extraordinary topics which you don't often find in the toy industry but are often experienced by children in their daily lives and significantly pique their interest.** These are special toy vehicles which children love!

Action will really cruise into the nursery with these products - come discover THE new hits for your wooden toy assortment in our [online shop](#) or at **our exhibition stand, stand number 048 in Hall 10.1, Aisle C.**

Best regards,
Legler OHG small foot company
